Committee Message

Dear Chemical Engineering Class of 2020,

It has been our absolute pleasure to highlight your memories, best moments, and friends in this yearbook. As part of AIChE, one of our core missions is to connect the chemical engineering community, and we hope that this yearbook helps you remember the people you have spent so much time with these past few years. Whether it was staying up with friends to finish a problem set, cramming for midterms in Hildebrand, or trying to debug your MATLAB code, these memories are to be cherished alongside your academic accomplishments. You have successfully navigated through one of the most demanding, rigorous, and unforgiving academic programs, and we believe you will achieve amazing things in the future. Congratulations on your graduation from the #1 Public University in the World!!

Go Bears,
AIChE Media Committee
